

Gleichen Canadian Club

Pro. Library, Dec. 21, 1928

TWENTY-SECOND YEAR No. 14

GLEICHEN, ALBERTA, WEDNESDAY JUNE 24, 1928

SUBSCRIPTION \$2.00 PER YEAR

The Canadian Club is one of many which have been formed throughout the length and breadth of Canada to stimulate with in all our citizens greater love for our country and to promote concord and unity among all our people. They want our girls and boys to grow up to be good, true and loyal citizens of Canada.

1867 Canada's Sixty-First Birthday 1928

Published by request of The Gleichen Canadian Club in commemoration of Dominion Day

A MESSAGE

We speak of the first of July as the birthday of our country, and in a sense this is right, as on the first of

TOWN COUNCIL

Five years ago we celebrated the sixtieth birthday of Canada. During the three days of Jubilee; when we then held we were given an opportunity to review in a comprehensive way our country's past history, extending two hundred years or more previous to Confederation.

The sixtieth Jubilee Celebration of last year was a great national event, successful and outstanding in every way, may be judged from the expressions of admiration, compliment and congratulations extended to us officially from abroad—from the great American Republics and from the dominions and sister nations across the seas.

The nine provinces of Canada united and organized as never before make a most memorable and highly successful one.

Our own province of Alberta, youngest but no means least remarkable, in its contributions, features prominently and conspicuously, even to its most remote rural parts, in all the festivities of these three days of national celebration.

More locally, celebrations in our town and district of Gleichen were in close keeping with those in other parts of the country.

Once more Dominion Day brings to us its message, reminding us of one more Canadian birthday, of another year to add to our record in the past. Dominion Day, among all holidays is one that stands out distinctly and pre-eminently Canadian. It is the birthday of the settlement of colonies and nation-wide glow in the breast of every loyal Canadian. It is our great national holiday. It marks the great and glorious events in our history—the birthday of our country, Unity, concord, and even-handed justice to all was the aim and the visible expression of the fathers of our nation. On that basis, the bold strong and broad the foundations of the Dominion of Canada sixty one years ago. On that basis, the sons of our fathers have built, slowly, patiently, but surely, the Canada we know today.

The object of Dominion Day, as I understand it, is to bring together all of these great men and statesmen who, "built better than they knew," and to honor and称赞 the memory of the pioneer men and the men who have made possible a united, contented and prosperous Canada.

This year we celebrate Dominion Day on Monday next, July second. Elsewhere is an announcement of an appropriate local program for the occasion, under the auspices of the Gleichen Canadian Club. To these celebrations all are invited. A special invitation is extended to our new and naturalized Canadians, to strangers and visitors

from other countries, who have come to us to stay, and the hardships of pioneering have borne in a spirit of cooperation and mutual help, all of which make up a history of any country may be proud. To properly understand the meaning of confederation, we must take a look at the long line of men whose deeds made confederation possible. We

must visualize the lonely settlers of the seventeenth century; the chivalrous Frenchmen of the old regime; the simple minded Acadians; the United Empire Loyalists; the hardy homesteaders; the original hunting and migrant, and the adventurous frontiersmen of the western country; Frenchmen, Hudson Bay men, and Norwegians.

The first message of Dominion Day is that confederation was not a beginning, but a stop forward. We have made a long step forward, but there is still a long way to go.

But the message of the British Empire follows in the footsteps of the fathers of Confederation, and the more difficult time before that date?

Begin with the children if we have not already done so, from the standpoint of our U. F. A. the motto is: "We are the future of the British Empire." The objects of our Juniors—To train for citizenship.

To train for leadership. To follow more definitely the four main fields of interest, education, vocational, economic and social. Let us make conditions in our Dominion such that those who are not born here will find a home here, and do all the best for Canada one of the greatest of nations, and the spirit of the poet who wrote:

Breathes there a man so dead,
Who never to himself did say,
This is my own, my native land,
Or that the heaven above me is
My Father's sky?—W. C. BUCAYLE,

Pres. U.F.W.A., Gleichen, Local 101.

RETAIL MERCHANTS

DOMINION Day is again with us and Canada passes another mile stone she can look back over the way from July 1st, 1867. The new position which Canada has claimed in the world's market, within a few months, is really after all made up of units of her population, as a whole, the efforts of each individual in their respective spheres of action. The Retail Merchants Association to all units of the population, and particularly to those who are privileged to do our share in the building up of our nation. As distinct from the rest of the provinces of Canada and as representatives of the factories which turn out the commodities we are proud to say that we are doing a bit more than keeping the houses running and the artisans working overtime. Only as Canada does this can she hope to keep her place in the sun.

Held in Canada, as a whole stand at the top of the list as distributor of Canada's wealth and the merchants of the world are our part to ward keeping the wheels of trade and commerce turning. On the occasions we turn our backs to God and pray that she may still continue the way she is now going and that peace and unity may crown the efforts of her people as we have done.

E. R. YATES, Pres.

M. T. PURCELL, Secy.

J. A. RAMSEY, Secy.

In a few days we shall celebrate the anniversary of the founding of this Dominion which came into existence on July 1st, 1867. At the same time, the House of Commons of the Dominion will give credit to a few thoughts which the occasion brings forth. To the boys and girls who particularly direct our minds, we wish them to be good men and men on their shoulders will rest the men of the continuing the work of development so well begun by their fathers and mothers. They should consider it a great privilege to be Canadians. You live in a country of which you may well be proud, which has learned the art of giving to your country good citizenship, and I feel sure that the Gleichen Board of Trade will give you their full support.

—L. M. MIAHL,
President, Gleichen Board of Trade.

LADIES AUXILIARY
CANADIAN LEGION

ON THIS 61st anniversary of the birth of our great Canadian nation, the thoughts occur that the greatest blessing that could be bestowed on us is that we have a manly and patriotic spirit. This much desired occasion has not yet arrived we must continue to prepare. It is a well known fact that the Canadian Legion is the largest organization in the country. Hence from early days attention has been paid to the health and education of its people. They have also given to the veterans the vision of the "Fathers of Confederation," who have been with us through the ages—or to the boys a splendid scope for activity. It is an organization to which you may well be proud, which gives credit to the welfare of the community in which you live, and which is a source of strength to your men and women, and on their shoulders will rest the men of the continuing the work of development so well begun by their fathers and mothers. They should consider it a great privilege to be Canadians. You live in a country of which you may well be proud, which has learned the art of giving to your country good citizenship, and I feel sure that the Gleichen Board of Trade will give you their full support.

—L. M. MIAHL,
President, Gleichen Board of Trade.

THE NORTHERN birthday has arrived of this country of ours, and great progress has been made in the cause of the wife and mother and the child. We are doing our part to ward keeping the wheels of trade and commerce turning. On the occasions we turn our backs to God and pray that she may still continue the way she is now going and that peace and unity may crown the efforts of her people as we have done.

—M. R. LEWIS, Pres.

THE SPIRIT OF SUCCESSThe effort to accomplish is not fail-
ure in success. We only fail when we
acknowledge failure and lie down
defeated and disinterested. But when
we have been beaten, we must not
be beaten, still striving to accom-
plish something worth while do-
ing, aiming to serve our fellow men
and the world, we can never fail.Lots of men are beaten second to
the outcomes, who are not even
victors in their own right. The
"smash" retreat from Mons, hold-
ing the Germans back doggedly, dis-
puting with the world every way
they could, was beaten, with their
dead bodies, but delaying the enemy's"smash through," was beaten by all
the rules of war, but it is counted
as a victory.Columbus was beaten, according to
the scoffers of his day, before he
discovered America, but he was
not beaten, his crew mutinied and when
adverse winds delayed his ship's pro-
gress, he had to turn back. But who
can say that Canada's great rail-
way builders were beaten?There are many illustrations
of the trials we have had. Illustrations
of the trials we have had are met
on every side. We know a news-
boy in a great Canadian City who, in
spite of most terrible physical con-
ditions, rises every morning to sell his
newspaper at a street corner until to-day
is kept on plugging and won. So
it is the human spirit which is
the true conqueror.He could not fail; he
says to you good folks who are always
pessimizing failure for the other
folks; put your hammers away and
hammers are useless. He says to you
that you think failure is only
going through the experiences
that every successful man has had to
have. Success is not failure, but
failure is not success."Except it does," says the
scripture of the seed, "it cannot live."
In other words, if in failure we
find success. In defeat we reach vic-
tory. The effort to accomplish is, in
itself, success.**AIDING THE FARMER**Among the many schemes which
have been projected in the past few
years or pretended efforts to aid the
farmers of the country, very few have
been of any real value to the farmer. In
fact, some of them have been pre-
dictive of more harm than good.But there is one species of govern-
ment help at which the farmer has had
the whole hearted help. It is the
agricultural extension service, whereby
farm and home demonstration
agents, trained in the latest scientific
and cultural duties, have gone among the
farmers, their wives and daughters,
and taught them how to help them
selves.The various field and home pro-
jects and demonstrations carried on by
these faithful workers, often under
the most discouraging circumstances,
have materially increased the efficiency
of farming and rural

homemaking.

Each year effective work has been
done with the boys' and girls' clubs; work
which will exert a tremendous
influence upon the rural life of the
future.The work of the farm boys
and girls' community centre
is perhaps the most important activi-
ty for the betterment of agriculture
today.The attitude of many of us towards
weed control and supervisors
has much to be desired. It is
natural to resent criticism, and
the pointing out of our faults. Let
us rise above this feeling and try to
see in what we do wrong, and friend
who is well qualified to point out
our faults has a right to do so, and
willing to advise on the best way to
correct them. Let us not wait for
the collector to find out what

"Safety First" on the Highways

The phenomenal growth in the number of motor driven vehicles on the highways of this country constitutes one of the most important modes of living in the space of a very few years, and equally important is the new era in the history of transportation.

It is not necessary to even mention the fact that the safety of your passengers depends largely upon the drivers. These changes are passed to everyone. The result has been, or course, to literally create entirely new problems which did not confront, and were never dreamed of, by the people in a considerate time so long ago.

The motor car has forced governments and municipalities to completely re-organize plans and the work of road building because what was required as an example of the most difficult engineering, labor, power and speed of the motor car did not exist in highway design. To each and every occupant in all government authorities is only in the construction of a much higher standard of road, but in annual maintenance charges in order that such roads shall be up to that high standard, and shall be available at all times.

In large cities, the multiplicity of cars have created congested and traffic problems of the most difficult nature. Speed, power and speed of the motor car are not safe on a highway. To each and every occupant in all government authorities, the governing rates of speed, laws prohibiting of placing headlights for night driving, and immovable rates of the road are an absolute necessity. The result has brought about a much more effective protection of the public. Many of these measures were experimental and have been effective. Measures have followed amending in rapid succession, yet the toll of accidents and violent death mounts steadily higher and higher.

The fast might as well be faced—it must be faced—through the practice of the motto—"Safety First" by the people themselves—all the people can help to make really control this modern generation which is in inventive genius of the road. This road has brought into being and to such a high state of power and efficiency.

Legislative enactments and arrests and fines for violation of those laws, will not and cannot prevent. Protection and enforcement of public safety must be a concern of all. Let us all reluctantly and reluctantly disregard the laws and regulations passed in the interests of the speed maniac, who men perishes in flashing lightning headlights in the eyes of other car drivers, who men who consider an instant and a reflex action to him as equal to any other car driver, who men the road, the crazy fool who only disregards, safety precautions for himself but who is callously indifferent to the fate of others, and the common man who ignores any safety measure which would possibly be desired to himself. All these enemies to the welfare, enjoyment, rights, and even lives of others, must become taboo throughout the land and he ostracized by his fellowmen and the community.

Even though of a car owner's mind to think it is a power machine he has in his control, and that the safest way is the same way. Common sense will prevent accidents. Apply it. There is only one law in an effort to make others observe it. Protect person and property—your own and the other's too.

Two controllable factors enter into accident prevention on the streets and highways—your car, yours' yours' always aware, among others, the following are the most important:

- Keep your car right; see that the brakes, steering gear and head lights are in perfect working order.
- Keep your eyes open; see that your hands are on the wheel.
- If you "stop" traps to see let him.
- Enter main streets and highways—stop and listen.
- Don't drive through nor "hard" in heavy traffic.
- Regularly keep your car road, stop, or change your course.
- Look before you back up.
- Obedy the "Stop" signal.
- Watch your "Step"—Don't "step" on the gas, the train will win.

Start Ranching Projects

Forty-two projects are being started on the Dominion Department of Agriculture's experimental ranch near Medicine Hat, Alta. The ranch comprises 15,000 acres and will be devoted to the raising of the cattle herd. With more than five thousand acres under lease in the Southern part of Alberta and Saskatchewan to about 1000 ranchers, work is being done in improving these grazing areas before comes opportune.

Two children, aged five and six years, attending a school in Germany are expert shorthand writers, although neither can read or write longhand.

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acid. But don't drink herbs. Use what your doctor prescribes.

The best help is Phillips' Milk of Magnesia. It is the only safe and effective medicine for removing excess acid from the stomach. Each bottle contains directions—any druggist.

Victim of His Invention

Radium Paint Inventor Is Slowly Dying Of Poison

The New York Times says that Dr. A. Von Soskowich, inventor of the radium paint, is believed to have doomed five New Jersey women to a slow death, is a victim of his own invention. He is still alive, however, although the doctor was reduced to talk about himself, marks of his invention of the well known paint, his teeth were black and his fingers up to the second knuckle are black, the result of radium necrosis. The doctor has frequently risked his life in recent years to treat patients with radium.

Dr. Von Soskowich bought the company with him seven years ago the formula for the radium paint. He became an official of the U.S. Radium Corp., which makes the paint. The five New Jersey women are said to have acquired the radium poison.

They were made a settlement with the company amounting to a life-time annuity for their relatives when they die.

NEW STRENGTH FOR WEAK STOMACHS

Indigestion Disappears When Blood Is Enriched

The most urgent need of all who suffer from any form of indigestion is to increase the strength of the blood. The best way to do this is to eat the food which the body needs to perform the work of digesting the food. The best way to do this is to eat starchy foods like corn meal, wheat starches by Dr. William Pink Pitts, because they purify and strengthen the blood and increase the speedy relief in stomach disorders.

The value of this medicine in cases of indigestion is shown by the following: Dr. William Pink Pitts, N.D., says—“I have greatly diminished the symptoms of indigestion after eating I suffered from pains in the abdomen, but could not get rid of them until I took a different regimen, but without getting relief. I was told to eat more starches by Dr. William Pink Pitts, which I readily did, and I was restored to my former good health.” The following is a case of great trouble disappeared. It is now about three years since I have had any trouble with indigestion since I have not been troubled with indigestion since. I have taken every day a spoonful of Dr. William Pink Pitts, which I need in a need of the body.

The very first box helped me and he recommended it to me in need of it.

I am a great fan of Dr. William Pink Pitts, which I readily did, and I was restored to my former good health.

A little booklet, “What To Eat And How To Eat” by Dr. William Pink Pitts, which I readily did, and I was restored to my former good health.

Proposed Revision Of Anglican Prayer Book Is Again Rejected

London.—By a vote of 261 to 250 the House of Commons again rejected the revised prayer book of the Church of England.

The vote, coming after two meetings at which the attention of the nation had been focused, recorded a majority almost identical with that of the previous rejection last December, when the vote was 271 to 265.

The proposed prayer book, after rejection last December, was referred to the bishops, and after the approval by the church assembly, was submitted to Parliament.

A petition in an appeal issued by the Archbishop of Canterbury, and the Archbishop of York, supported by the members of the House, asserted that the new responsibility had upon the bishops was very great, and a plea was made "for quietness, for a little patience and for forbearance from any angle or unkindly words."

The speech of Sir Vivian Dickie, home secretary, was the high light of the debate on the proposed parts of the revision. The minister, a strong exponent, who led the opposition, declared that the revision of the House was being asked to "revise its own decision" and inferred that the change was responsible for Dickie's decision. He declared the work essentially the same as the one rejected last December.

Lord Hugh Cecil and Treasury spokesman were supporting strongly the speaker in favor of the revision.

The premier stated that the revision must be accepted, and that the House itself would face the church if the measure was rejected; he would be indirectly the mover of the bill.

Mr. Baldwin said he felt an adverse vote would weaken the hands of all those who wanted to bring through a comprehensive bill to come and give immediate impetus to the new plan which those who were opposed to it had been unable to put forward.

It would also be, he said, kinder to the religious programs of the country.

The House of Commons was a demand of gravity as it entered upon the second and final day of the debate.

The Archdeacon of Canterbury, the Archbishops of York and London, and the Bishops of London and Southwark, who were present, gave their hearty endorsement of the revision.

Supported by voluminous exhibits, Lucy gave a comprehensive account of the proposed revisions in agrarian and social fields, and helped to bring the grain districts of Western Canada and Eastern Washington, as well as the railroads, into the Canadian railways and the government was attracting growers from Washington to Canada.

A single roll-call in the national convention told with impressive lucidity the story of his overwhelming victory against a united field of rebels.

The official vote was: Hughes, 1; Davies, 4; Condie, 17; Goff, 12; Morris, 1; Watson, 2; Curtis, 4; Loring, 71; Hoover, 837.

A forcible conclusion, since the result was known, was that the nomination became a reality before the roll of the states was completed. The final count disclosed him in complete rout.

Hoover Republican Nominee

Overwhelming Victory Decided

Kansas City, Mo.—Herbert Clark Hoover was chosen the Republican nominee for President of the United States.

A single roll-call in the national convention told with impressive lucidity the story of his overwhelming victory against a united field of rebels.

The official vote was: Hughes, 1; Davies, 4; Condie, 17; Goff, 12; Morris, 1; Watson, 2; Curtis, 4; Loring, 71; Hoover, 837.

A forcible conclusion, since the result was known, was that the nomination became a reality before the roll of the states was completed. The final count disclosed him in complete rout.

Woman Sues For Millions

Action Brought On Deathbed Of Father Or His Espousal

Port Arthur, Ont.—A woman claiming to be the daughter of the monk Rasputin, the spiritual confessor for the late Tsarina, has filed a suit for \$100,000 for the assassination of her father against Prince Yusupoff and Grand Duke Dmitri.

The woman bases her claim for damages on evidence in a book by Prince Yousupoff, which is to be published in Paris, in which the "execution" of the mysterious monk is described and Prince Yousupoff and Duke Dmitri are named as principals.

The name of the plaintiff is Madame Marie Gregorina Rasputin, aged 40, who is the widow of Nikolai

Industry To Thrive With India's Help

London.—The Government of India has accepted the invitation of Secretary Kellogg to participate as an original signatory in the proposed multilateral treaty for the regulation of war.

W. N. U. 1738

Appeal Was Rejected

Privy Council Gives Decision On

London.—The outcome of the Privy Council judicial committee's rejecting Alberta's appeal in the coal mining tax case has the effect of depriving the province of the right to determine what it had hoped to collect on the production from coal mines. The Privy Council upheld the decision of the Alberta court that Alberta mine owners tax act of 1925, which placed a tax on every ton of coal produced, was unconstitutional.

The province's test case was launched against the Canadian Coal Council, which had rejected the Privy Council statement that the tax could not be imposed on coal miners.

It is now known an aggregate of the sums received from the sales of coal and of indistinguishable fuel is tax exempt under the new tax law.

Alberta's tax was suspended.

The province's test case was launched against the Canadian Coal Council, which had rejected the Privy Council statement that the tax could not be imposed on coal miners.

The judicial committee agreed with the judges of the Supreme Court of Alberta that the tax was unconstitutional.

Some attempt had been made in the argument to support the tax on the ground that it was a tax on gross production, but it was pointed out that there were marked differences between the two countries.

William Lunn, M.P., of Rothwell, makes this suggestion in the *British Empire Evening Post*. He is an ex-member of the Overseas Settlement Committee, and still a member of that body.

"In just a few years we have almost arrived at 10,000,000 to go to Canada, of whom 5,000 will be miners. The chances were to give cheap passes, and other inducements, so that less than 5 dollars a day, and to assist in bringing them back who could not find permanent employment."

"One lady promised to pay the expenses of 100 South Wales miners to Canada, to help with smaller numbers. Just when everything was in order for the project being carried out, it unfortunately did not go through."

"No doubt three out of four would settle permanently in Canada. Those who were not destined to return would be helped in cost of passage home," he said.

The total payment of \$1,000,000, where the interest does not total the sum of one dollar, no payment is being made.

The six million pounds is paid to the Canadian government, and the total deduction for elevator passes from the 1924 and 1925 crops.

That is the most satisfactory way of populating the Dominion, he said.

Those 7,000 or 8,000 would make up the nucleus of a new community. Then they would be likely to recruit others, and in many cases, sisters, brothers, and in many cases, sons and mothers.

That is the most satisfactory way of populating the Dominion, he said.

He then began to begin the circle which is likely to enlarge and multiply in all directions.

Can something be done, and done soon? asks Mr. Lunn, in conclusion.

Searching For Bodies Of Kamloops Victims

Eight Of Them Are Said To Have Already Been Recovered

Port Arthur, Ont.—A tug and launch have left here for Isle Royale to continue the search for bodies of victims of the steamer *Empress of Ireland*, which was lost off the Island last December.

The operation has been organized by Captain H. J. Bryan, of Kingston, brother of Captain Bryan, of the Kamloops, and is financed by him and relatives of the missing ones on the crew of the steamer. It is proposed to patrol inland as well as along the shore line. Eight bodies of the 22 on the boat have already been recovered.

Empress of Ireland Was Passsed

London.—After an unsuccessful attempt had been made to raise the qualifying age, the House of Lords in committee last evening passed a bill to women 21 years of age and over. The House of Commons had already approved the measure.

Ice Delays Seaplanes

Machines Held For Survey Of Canadian Air Force

Ottawa.—Ice on the small lakes in the vicinity of Fort Churchill is holding up the survey of the 100 Canadian Air Force seaplanes which are in readiness to fly to the Hudson's Bay port for the purpose of surveying the Arctic coast.

Fire Razes Old Sun School Damage Over \$100,000

Last night Gleichen witnessed the most spectacular fire seen in these parts for some years—and Gleichen knows only too well what fire means. The fire demon brings destruction to many experiences.

The fire devoured last night destroyed all the furniture, heating apparatus, law worth of property and equipment.

Fire breaking out in the basement of the Old Sun School, which was built in 1912, got away on the Hillside. Firemen last night completely rased to the ground the building which had been nothing but a cement foundation.

About 8:40 smoke was noticed coming out of a store room. Already firemen were on the scene. The fire had, but all were brought out except one, who had to go to the fire drill which had been practiced among the staff and students. The fire was put out in any way, but gathered their belongings and marched out as directed.

Mr. and Mrs. Frank Bates farm supervisor and boys supervisor, who were not burned either.

COMING EVENTS

June 28—Piano Recital by Mrs. Chalmers pupils in Gleichen Church Hall.

July 2—Bassano's Dominion Day sports.

Aug. 10 to 16—Gleichen Annual Canadian Chautauqua.

J. E. Ostrander is showing his enterprise by erecting a new business block at the corner of Main Street and Croftfoot Street, which will be occupied by Mr. and Mrs. Bruce C. Thompson and his contract.

The Call rescue Reeve Thomason is unable to send a Dominion Day message to the men in the army. Dr. H. G. Goodwin, Indian Agent, has been taken to a Calgary hospital. The message of the importance of the day will be sent by the U. F. A. has not reached us yet and the day will be observed.

Many interesting items are crowded out to make room for the news of the great Dominion Day which we hope will be read with interest by all.

Mondays is a holiday throughout Canada.

Gleichen's big annual Exhibition Stampede is nearing and promises the biggest and best yet. It is now rated the second largest in this wide Dominion.

Lived directly over the place where the fire was first noticed had all their furniture, and valuables removed with the rest.

Much of the school equipment was destroyed, but the Indian Agent, Rev. F. M. Gibney, looked after the welfare of the children.

It is believed the fire started through carelessness.

The work was started 4 years ago by Archdeacon Timms on the north side of the hill. The original building site in 1912. In 1922-23 it was enlarged making vast enlargements, making the space suitable for accommodation of 1000 children. Cost \$90,000. The building being owned by the Indian Agent, there is no insurance on the event, no insurance was carried on the name. The contents were not insured either.

Mr. and Mrs. Frank Bates farm supervisor and boys supervisor, who were not burned either.

Furniture Sale

Jack Moss will sell the remainder of his household goods at 1 p.m. on

Everyone will want to attend the piano recital by Mrs. Chalmers' pupils on Thursday evening, June 28th.

SCHOOL BOARD

GAIN our schools close for another year and our boys and girls enter upon their holidays on July 1—Dominion Day. This day the birth of the nation of Canada, the study efforts of our pioneer Canadian ancestors. There is no way in which we can repeat directly what we are doing over to those who knew. To what extent these builders visualized the result of their efforts we can only conjecture, but it is certain that passing years have not dimmed the grandeur of the work accomplished in the same provinces that constitute this great Dominion was welded together.

As Canadians we have a noble work to do in the development of our country. The task is not without its difficulties. Diversity in geography and economics, diversity in race language and culture, and social life and tradition present obstacles which must be overcome.

But the Canadian spirit will accomplish what we desire to have done.

In this direction we have the great resources of the watershed of that great river the British Columbia, that shall be developed by Canadians, within the Dominion people. The natural resources shall be preyed by those capable of assimilating our ideas and learning to know and understand our interests.

In this direction we have our inter-provincial ties, we have our national spirit of sympathy, toleration and understanding, from which we can proceed to unite in a common cause and extensive and diversified in extent.

Our fathers have bequeathed to us a grand heritage in the strength of our institutions and the noble example of their lives.

These qualities of mind and soul which they possessed of courage and integrity; of the sense of loyalty and duty, and the well founded foundations of this country of which we are so greatly proud.

It is for us Canadians, one and all, to be true to their best traditions and inspired by their example to work together with a common aim and a definite purpose for the welfare of this our Canada.

JOHN C. BUCKLEY.

A MACADAM.

St. Victor's Church.

CANADIAN LEGION

© All veterans of the Great War and other wars, Dominion Day, July 1st, is in the true nature of the spirit of our country.

Veterans have since participated in the Great War. Fortunately many veterans have gotten along well, and are maintaining their health, but it has been an uphill fight, but the spirit that prompted us to serve abroad, has surely kept us going, and to do the things which mean something to our country.

There are those who, through disabilities or misfortune, have not been able to hold their own in the Canadian Legion or the British Empire Service League and our sister organization, the Royal Canadian Legion.

If the H. E. S. L. or the co-operation of the ruling bodies in the country, we think we are safe in saying, that most men and women are better off today than they were yesterday.

For this we are thankful. Our message is that all bear true allegiance to their fellow men and in so doing we are true to the spirit of the Dominion of Canada, our native land, or the land of our adoption, and faithfully to the true Canadian spirit.

We are also thankful for a reasonable service that we should try to accomplish.

May the ensuing year bring good fortune to all.

B. T. COCORAN, President.

M. WADE, Sec-Treas.

A Piano Recital

Given by the pupils of

THE GLEICHEN CALL, GLEICHEN, ALBERTA

UNITED CHURCH OF CANADA

N the Legislative Hall at Charlottetown, P. E. I., there is a cabinet in memory of the Fathers of Confederation. Beneath it is the inscription, "They built before us what we know." To what extent these builders visualized the result of their efforts we can only conjecture, but it is certain that passing years have not dimmed the grandeur of the work accomplished in the same provinces that constitute this great Dominion.

As Canadians we have a noble work to do in the development of our country. The task is not without its difficulties. Diversity in

geography and economics, diversity in race language and culture, and social life and tradition present obstacles which must be overcome.

But the Canadian spirit will accomplish what we desire to have done.

In this direction we have the great resources of the watershed of that great river the British Columbia, that shall be developed by Canadians, within the Dominion people.

It is for us to do our best as to our national needs?

May I suggest two? This goodly land of opportunity has been widely advertised, and the eyes of many have been turned upon us as a place where fortunes are quickly and easily made. We do not want more men and women to come here to seek fortunes.

But we do want—and we want with all our hearts—a great multitude of men and women to come and make their homes here. We want to be crying every day in Canada today, especially Western Canada. Another great need.

During a trying time in the history of the Dominion, Sir Wilfrid Laurier said, "We must be patient." David said, "It is very honest but a very tried thing when he said, 'If we don't all hang together, we will all hang separately.' As people we are very different in personalities, and in many other things, but we need not be divided.

Our fathers of confederation gave us a great inheritance, and we must be patient. They laid the foundations of our political and religious differences, and even bitter personal feuds. As people we are very different in personalities, and in many other things, but we need not be divided.

Our fathers of confederation gave us a great inheritance, and we must be patient. They laid the foundations of our political and religious differences, and even bitter personal feuds.

As people we are very different in personalities, and in many other things, but we need not be divided.
